HORTICULTURAL NOVELTIES 100 per cent American

Offered to the Trade only, Autumn of 1920, by D. M. Andrews,
Owner of Rockmont Nursery, Boulder, Colorado.

Having formerly, until interrupted by the war, collected western native plants for export, it is my plan to offer these extensively to the American Trade. For the current collecting season I shall offer a selected list of practical items such as have had a favorable reception in Europe during a period of more than twenty years. A number of my introductions have come back to the United States from Europe as successful novelties. Quarantine No. 37 has in a large measure closed this indirect and roundabout avenue for American horticultural productions and the time is at hand for direct dealing between American producer and members of the horticultural trade. I prefer to distribute through the trade and not direct to the planter. The reception of this offering will in a degree determine my method of introduction. Eventually you will be listing some of these novelties. Why not get acquainted with them now?

This offer, so far as collected plants are concerned, holds good only through the autumn collecting season of this year. I cannot collect in the spring. Order early, as late collecting in the higher mountains is impossible. Orders for collected stock must be placed by Sept. 30, and earlier if possible. Shipments go by express, packed light weight as possible. Usual credit to responsible parties.

Colorado Native Shrubs or Trees.

All are nursery-grown unless marked (Coll.) which indicates those collected from the mountains. My collected stock is carefully selected and is well rooted.

	per 10,	100,	1000.
<i>Amorpha cana</i> , 2-year, very dwarf, garnet flowers	\$5.00	\$40.00	
<i>Berberis repens</i> , (Mahonia) collected plants	1.00	5.00	40.
<i>Celtis rugulosa</i> , Mt. Hackberry, 3-4' Tr.	5.00		
<i>Cercocarpus parvifolius</i> , Coll. 1½-2'	2.50	20.00	
<i>Clematis ligusticifolia</i> , Coll.	2.50	20.00	
<i>Cornus stol.</i> <i>Coloradensis</i> , 1-2' Tr. dark red stem	3.50		
" " <i>Utahensis</i> , tallest red dogwood, 2-5' Tr.	7.50		
<i>Corylus rostrata</i> , transplanted clumps	5.00		
<i>Crataegus Coloradensis</i> , Tr. 1½-2' scarlet fruit	3.50		
" <i>erythropoda</i> , Tr. 2', chocolate-red fruit	3.50		
" <i>rivularis</i> , 2-3', Tr., black fruit, glossy fol.	5.00		
<i>Dryas Octopetala</i> , (alpine) collected turfs	5.00	40.00	
<i>Gaultheria humifusa</i> , (alpine) collected turfs	5.00	40.00	
<i>Holodiscus microphyllus</i> , Tr. clumps	7.50		
" " Collected	3.50	30.00	
<i>Jamesia Americana</i> , small collected clumps	2.50	20.00	
<i>Kalmia microphylla</i> , (alpine) collected turfs	7.50		
<i>Lonicera involucrata</i> , Tr. 2-3' extra fine stock	4.00	35.00	
<i>Opulaster bracteatus</i> , Tr. 2', very rare	10.00		
" <i>monogynus</i> , Tr. 2', dwarf species	5.00		
<i>Pachistima Myrsinites</i> , Coll. nicely rooted tufts,	5.00	40.00	
A rare, evergreen ground cover, partial shade, rich humus soil.			
<i>Parthenocissus Saint Paulii</i> , (Ampelopsis) Tr.	5.00	40.00	
An improved type near <i>Engelmannii</i> , but smaller leaves, shorter joints, more discs which adhere more securely to walls: this is by far the best species of 5-leaved ivies; Mo. and Oklahoma, hardy			
<i>Parthenocissus vitacea</i> , Coll. very robust vine	2.50	20.00	
<i>Populus Andrewsii</i> , 3-4' from cuttings, male	5.00	40.00	
A hybrid cottonless Poplar named by Prof. Sargent; exceedingly rapid growth, fine rounded head, good branching system and foliage.			
<i>Potentilla fruticosa</i> , Coll.	2.50	20.00	
<i>Prunus Besseyi</i> , 1½-2' Tr. Western Sand Cherry	2.50	20.00	
" <i>Melanocarpa</i> , Tr. Western Choke Cherry	3.50		
<i>Quercus Gambellii</i> , 2-yr. shrub to 15' tall	2.50	20.00	
" " 4-yr extra fine deep-lobed foliage	5.00	40.00	
" <i>Gunnisoni</i> , 2-yr. low shrub to 6 feet	3.50	30.00	
" <i>Havardii</i> , Tr. clumps, smallest of all oaks	10.00		
" <i>prinoides</i> , Tr. clumps (eastern species)	7.50		
" <i>undulata</i> , 2-yr. Evergreen, hardy, shrub to 6'	3.50	30.00	
" " 4-yr.	5.00		
" <i>Utahensis</i> , 2-yr. small tree to 30 ft.	3.50	30.00	

These Rocky Mountain dwarf Oaks are highly desirable as medium to large shrubs, with exquisite variously cut and lobed foliage of firm leathery texture, dark green except *undulata* and *Havardii*, which are bluish green and nearly evergreen north; all are hardy.

	per 10	100	1000
<i>Rhus cismontana</i> , Coll. related to <i>glabra</i> , but dwarf	\$2.50	20.00	
<i>Rhus quercifolia</i> , rare trifoliate type, Oklahoma	10.00		
= <i>trilobata</i> , 1½-2' Tr.	5.00	40.00	
<i>Ribes leptanthum</i> , Tr. elegant dark foliage, rare	7.50		
<i>Robinia Neo-mexicana</i> , Pink Locust, 5-6' Tr	7.50		
<i>Rosa stailata</i> , (clumps \$7.50 per 10) 1½-2'	5.00	40.00	
Rarest of American roses, minute 5-parted leaves, almost everbloom- ing, large rugosa-red flowers, prickly fruits. Very unique, hardy to 20 below zero; prefers dry sunny slope sandy soil.			
<i>Rubus delidiosus</i> , (2½-3' \$5.00 per 10) 1-2' Tr	3.50	30.00	
<i>Salix brachycarpa</i> , alpine not exceeding 2½ ft. 2-yr	5.00		
= <i>glaucops</i> , silvery fol., dwarf, 2-yr	5.00		
<i>Sorbus scopulina</i> , Fr. clumps, very rare Mt. Ash	10.00		
<i>Spiraea Douglasii</i> , Tr. 2-3'	2.50	20.00	
<i>Symphoricarpos occidentalis</i> , 2-3', white fruited form	2.50	20.00	
= <i>Oreophilus</i> , semi-trailing, white berries	3.50	30.00	
= <i>vaccinioides</i> , minute foliage and drooping habit	5.00		
<i>Vaccinium oriophilum</i> , purple huckleberry, coll. cl.	3.50	30.00	
= <i>scoparium</i> , red huckleberry, subalpine, Coll.	3.00	25.00	
<i>Yucca baccata</i> , (hardy Colorado form) 2-yr	2.50	20.00	
= <i>glauca</i> , narrow glaucous foliage, 2-yr	1.50	10.00	

Native Herbaceous Perennials, including Alpines.

Most of the following are collected, and orders should be received
by Sept. 30. There is no spring collecting season.

	Per 10,	100,	1000
<i>Aconitum Columbianum</i> , shade, blue, 4 feet	1.25	10.00	
= <i>flavescens</i> , same, except creamy white	1.25	10.00	
<i>Aquilegia coerulea</i> , true wild stock, collected	1.00	6.00	50.
<i>Anemone Patens</i> Nutt. (<i>Pulsatilla</i>)	1.00	6.00	50.
<i>Aspidium Filix-Mas</i> , one of the best hardy ferns	1.25	10.00	
<i>Asplenium cyclosorum</i> , large Western Lady-fern	1.50	12.00	
<i>Caltha rotundifolia</i> , white-flowered cowslip	1.25	10.00	75.
CACTUS: collected only in large quantity, price on application.			
<i>Clematis eriophora</i> , (<i>Douglasii</i>) bushy, non-vining	1.50	12.00	
= <i>coccinea</i> , strong nursery-grown	2.50		
= <i>crispa</i> , = = =	2.50		
<i>Delphinium Geyeri</i> , deep gentian-blue, 3 ft	1.25	10.00	
= <i>penardii</i> , white, gray-green foliage, 2 ft	1.25	10.00	
= <i>subalpina</i> , dark blue, early-flowering, 3 ft	1.50	12.00	
<i>Eriogonum umbellatum</i> , yellow umbrella-like umbels	1.25	10.00	
<i>Erigeron macranthus</i> , large violet purple, aster-like	1.25	10.00	
<i>Geranium Richardsoni</i> , pure white, foliage ornamental	1.00	6.00	50.
<i>Helianthella quinquenervis</i> , 3 ft	1.25	10.00	
<i>Heuchera bracteata</i> , low alpine, creamy spikes	1.25	10.00	
<i>Iris Missouriensis</i> , early, dwarf, large fld.	1.00	4.00	35.
<i>Leucocrinum montanum</i> , Sand-lily, crystal white, early	1.00	4.00	35.
<i>Lewisia pygmaea</i> , alpine, crimson, small species	1.25	10.00	
<i>Mertensia ciliata</i> , large sprays small blue flowers, a valuable hardy plant for all situations, easily grown	1.00	6.00	50.
<i>Monarda Ramaleyi</i> , rather dwarf, red-clover color	1.00	6.00	
<i>Oenothera brachycarpa</i> , 5-inch yellow fls. from rosette	1.00	6.00	50.
= <i>caespitosa</i> , similar but pure white	1.00	4.00	35.
<i>Pentstemon alpinus</i> , dwarf, deep blue, large fld.	1.25	10.00	
<i>Phlox multiflora</i> , style of <i>P. subulata</i> , but large fls	1.25	10.00	
<i>Primula Parryi</i> , Alpine, 1 ft, showy crimson umbels	2.50		
<i>Saxifraga arguta</i> , water-edge alpine,	2.50		
= <i>austromontana</i> , alpine rock plant, clumps	2.50		
= <i>rhomboidea</i> , moist slopes, early, 6 inches	1.25	10.00	
<i>Solidago spectabilis</i> , rather dwarf, non-spreading	1.25	10.00	
<i>Trollius albiflorus</i> , subalpine, creamy white, showy	1.50	12.00	
<i>Thalictrum purpurascens</i> , glabrous and glaucous, 4 ft	1.25	10.00	
<i>Thermopsis rhombifolia</i> , very dwarf, yellow pea-flowers	1.25	10.00	
<i>Valeriana acutiloba</i> , excellent alpine, easily grown	1.50	12.00	
<i>Zygadenus elegans</i> , Star Hyacinth, 1 ft., moist soil	1.00	6.00	

To D. M. ANDREWS, Rockmont Nursery, Boulder, Colorado:

Please put my name on your mailing list for catalogues and other printed matter as issued, free and postpaid. I am interested in the subjects checked.
-----Native shrubs and trees of Colorado. -----Evergreens. -----Wild Flowers. -----Alpines and Rock Plants. -----Cactus and Yuccas.
-----A general list of ornamentals including Peonies and Iris, Shade trees, etc.

My name and permanent address is-----

The following persons are interested in one or more of the above subjects.

If you fill in the above addresses, I will mail free one packet of seed,
-----Salvia azurea grandiflora, or -----Yucca glauca; (check kind preferred.)

IN PREPARATION

A new illustrated catalogue of western native shrubs, hardy flowers, rock plants, alpines, etc.

Colorado

has a native flora unrivaled by any other region of equal area. Here are horticultural novelties not excluded by

Quarantine No. 37

because they originated in America. My offer of American Plants for American Homes is worth investigating. Have your copy reserved free by mailing attached card today.

REVISION OF MAILING LIST
ARE YOU INTERESTED IN HORTICULTURAL NOVELTIES?

Then for a better classification of my mailing list for catalogues and other printed matter, which will be sent free from time to time, please check the items or subjects you want. This is important, as I shall conclude that you are not interested unless you fill out the attached card and mail to me at once.

SPECIAL OFFER

Rocky Mountain Columbine, (*Aquilegia coerulea*,) thirty plants for one dollar. A marvel among Columbines—4-inch blossoms contrasting the color of the blue sky and snow-white summer cloud. These clear colors and magnificent size can be obtained only from our pure-bred strain, direct from the Mountains of Colorado. Return this card, making sure the address on reverse side is correct, and I will mail prepaid thirty, thrifty 1-year old seedlings for a one-dollar bill; 100 for \$3.00. This offer is not good after April 15th, 1920.

Address D. M. ANDREWS, Box 493, Boulder, Colorado.
